SECTION I  GENERAL CONSIDERATIONS AND PLANNING GUIDELINES

PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed building-level emergency plans. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Lindenhurst Union Free School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

The school board will ensure that information about drills be provided in the teacher’s manual or handbook.  

A summary of drill procedures are detailed in each of the Building-Level Emergency Response Plans.

**Staff Development Training:**

All general staff will receive training on District-wide procedures as well as specific procedures contained within their respective building-level emergency response plan. This training shall occur prior to September 15 of each school year or within 30 days of joining the district. This training will be conducted at a staff development day in August, online or a combination of both.

The District will provide advanced training for each Building-level Emergency Response Team (BERT) and District-wide Safety Team annually. The training will include practices and procedures to educate, evaluate, update and review all Emergency management protocols and procedures the teams perform including, but not limited to Lockdown, Lockout, Evacuation, Shelter-In-Place, Hold-in-Place and Early Dismissal. The District may involve local emergency responders to participate in this training.

Additional training includes but is not limited to:

- De-escalation training
- Warning signals for violence and mental health concerns
- Non-violent conflict resolution

**Proactive Building Security Measures**

1. The District buildings use limited points of entry. All doors are locked. Signs are in place directing visitors to sign-in at the reception desk at each school. Main doors are

controlled by remote “buzzer” entry during normal school hours. All buildings are equipped with video surveillance camera systems.

2. All schools have greeters or office staff members just inside the entrance to each school in the District. These individuals ensure visitor sign-in procedures and help supervise building traffic flow. The building principals are responsible for supervision of the greeters and other staff. All schools are staffed with security personnel during the school day and security patrols during off-hours.

3. Staff members are required to wear visible identification badges.

4. Visitors are required to sign in and wear visitor identification. All school buildings utilize a “visitor management” system that completes a background check via a driver’s license or state issued ID.

5. Visitor access is limited to specific areas of the school building.

VITAL EDUCATIONAL INFORMATION 38

Information on each building’s student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR 39

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A “plain language” summary of the District’s Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for harassment, discrimination, bullying and violence.

2. A “plain language” summary of the District’s Code of Conduct is mailed or emailed to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.

38 155.17(h)(i) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

39 155.17(c)(1)(xii) Policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community and environmental factors to teachers, administrators, school personnel including transportation coordinator, persons in parental relations to students of the school district or board, students and other persons deemed appropriate to receive such information;
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.

4. Efforts are made on the building level in each of the District’s schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Teams meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, parents/guardians and students may be involved in this process.

5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.

6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual's behavior, and on responsible decision-making.

7. Each of the District’s school psychologists/social workers may facilitate counseling groups for identified students around issues related to poor social skills development, managing emotions, and good decision-making.

8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.

9. The District may work in collaboration with building-level and District-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

**Police Agencies**

The District buildings fall within the jurisdiction of the following police departments:

2. These sites of potential emergencies will be listed in each Building-level Emergency Response Plan supplied to police, fire, emergency management services, and District personnel.

3. Potentially dangerous sites indicated below that are contained within school property and under the jurisdiction of the school district, will be checked regularly and inspected by building safety personnel on a regular schedule, at least annually. They include but are not limited to:

- Electrical panels/shut-offs
- Gas lines/shut-off
- Gas appliances
- Heating plant
- Sewage system
- Structural failure

**School Safety Personnel Allocations, Hiring, Duties, and Training**

Private Security and School Resource Officers

The district contracts with a private security firm whose duties and responsibilities are defined in the service contract. This contract is consistent with the Code of Conduct, and defines the roles, responsibilities, and involvement in the schools of the security personnel. Additionally, a Suffolk County Police Resource Officer is assigned to the district. The role of school discipline is delegated to school administration.

Staff is trained to report to the main office any person they observe who is not wearing a badge. In addition, one security guard is assigned to each elementary building.

B. At the high school and middle school level, there is a single point of entry for visitors, which is staffed during normal school hours by a security staff member. Visitors to the school must be buzzed into the building, sign in, be screened via the Visitor Management System and receive an identification badge issued by security personnel. Staff and students in the building are required to wear district-produced identification badges, which must be worn at all times. In addition, security personnel are assigned to areas throughout the building.

SECTION III  RESPONSE

NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

Internal
After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent’s office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

External
Anyone with knowledge of an emergency event is encouraged to immediately call 911.

The District’s mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of parents and students, the Superintendent or his designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District’s website: http://www.lindenhurstschools.org

During an emergency, all contact with the media will be handled either by the Superintendent or their designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or their designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

SITUATIONAL RESPONSES

MULTI-HAZARD RESPONSE
In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards.
Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building’s administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or their designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.⁴¹

**Response Protocols**

Written information on emergency response procedures is disseminated to parents, age-appropriate students and staff via email by October 1st annually. This non-sensitive information may also be found on the district website.

**School Cancellation**

- The Superintendent or their designee will monitor any situation that may warrant a school cancellation and make the determination to do so.
- The Public Information Officer will activate use of the District’s mass communication system.
- The Public Information Officer will contact local media, post the information on the website and social media sites utilized by the District.

**Early Dismissal**

- The Superintendent or their designee will monitor any situation that may warrant an early dismissal and make the determination to do so.
- The Operations Chief will designate people to arrange transportation for students.
- The Public Information Officer will activate use of the District’s mass communication system.
- The Public Information Officer will contact local media, post the information on the website and social media sites utilized by the District.
- The Liaison Officer will notify each of the building principals.

**Evacuation**

- The Superintendent or their designee will determine the level of the threat.
- The Operations Chief will contact the transportation supervisor to arrange transportation. They will also arrange for student-parent reunification.
- The Safety Officer will clear all evacuation routes and sites prior to evacuation.
- Principal(s) will evacuate all staff and students to prearranged evacuation sites as outlined in building plans. They will report to the superintendent or their designee any missing staff or students.

SHELTERING SITES (INTERNAL AND EXTERNAL)

- The Superintendent or their designee will determine the level of the threat and communicate with building principal(s) who are affected by the emergency.
- Principal(s) will move all staff and students to pre-arranged sheltering sites as outlined in building plans. They will report to any missing staff or students.

Responses to Implied or Direct Threats of Violence\textsuperscript{43}

1. Students are required to inform school staff about any direct or indirect threat of violence or actual act of violence to themselves, others or school property.

2. Staff members are required to immediately inform the Principal or their designee of any direct or implied threat of violence or actual act of violence by students, teachers, or other school personnel including transportation coordinator as well as visitors to the school, including threats by students against themselves, which shall include suicide. The Principal or their designee decides whether to utilize the building’s trained clinician(s) in an effort to de-escalate or defuse the situation.

3. The district disseminates educational material, including but not limited to emails and formal brochures, encouraging parents and visitors to tell school staff about any direct or implied threat of violence or actual acts of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves.

4. After considering the specificity/generality of the threat or severity of the violent act, the Principal or their designee will determine whether to immediately contact the Superintendent of Schools or the Assistant Superintendent to advise them of the threat, obtain assistance to determine the severity of the threat or report the violent act. The Principal will have the discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.

5. Each building has the availability of a Threat Assessment Team. This is a multi-disciplinary team that uses a nationally recognized evidence-based model to evaluate threats and implement the necessary mitigation steps to help prevent a threat from escalation to an act of violence.

6. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District’s Code of Conduct. Chronic offenders may require a behavior plan or contract, close monitoring, and/or police involvement.

PROTOCOLS FOR A STATE DISASTER EMERGENCY INVOLVING A COMMUNICABLE DISEASE

The following procedures provide a general overview of the District’s response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

BACKGROUND

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared state disaster emergency involving a communicable disease. The new legislation will constitute New York State Labor Law Section 27-c, and served as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to 2801-a of the Education Law that required additions to the District Plan.

Education Law - 2801-a (m) - protocols for responding to a declared state disaster emergency involving a communicable disease that are substantially consistent with the provisions of section twenty-seven-c of the labor law.

2. In the event of a state ordered reduction of the District’s in-person workforce the District will provide the opportunity for all non-essential employees the capability to telecommute including, but not limited to, facilitating or requesting the procurement, distribution, downloading and installation of any needed devices or technology, including software, data, office laptops or phones, and the transferring of office phone lines to work or personal cell phones as practicable or applicable to the workplace. Lindenhurst Staff will be guided on this as per the Building Level Emergency Plans, specifically the Continuity of Operations and Continuity of Instruction sections.

3. To the extent possible the District will stagger work shifts of essential employees in order to reduce overcrowding on public transportation systems and at worksites. Staff and students typically walk or drive via personal vehicle to campus. In an effort to reduce overcrowding on public transportation:
• Class schedules, if scheduled to be on site, will be staggered to a morning and afternoon cohort
• Staff will arrive on campus prior to students at staggered times/work shift or/and staggered assigned days of work
• If no students are in school staff will continue to have their work shift or assigned days of work staggered.
• Most employees will be permitted to work remotely.
• Visitors will not be permitted on campus.

4. A quantity of personal protective equipment (PPE), sufficient to provide to all essential employees, will be procured, stored, and managed as follows:

• Facilities will maintain inventory of PPE as recommended by the NYS Education Department guidelines, and continually restock same as needed.
• Storage of personal protective equipment will be on campus and comply with the manufacturer’s storage recommendations for each item.
• The equipment will be stored and readily available to any person in need of it.

5. In the event an employee is exposed to a known case of a communicable disease that is the subject of a state disaster emergency involving a communicable disease, exhibits symptoms of such disease, or tests positive for such disease, and in order to prevent the spread or contraction of such disease in the workplace the District has a set protocol to be followed for the exposure as well as the disinfecting of the affected work area(s). The District’s Building Level Emergency Plan contains an Infectious Disease Annex, section 25 which details:

• The disinfecting of any area known or suspected to be infected with the communicable disease as well as any common area surface and shared equipment such employee may have touched
• Available leave options, for the affected employee(s), in the event of an employee’s need to receive testing, treatment, isolation, or quarantine

Note: Such protocol does not involve any action that would violate any existing federal, state, or local law, including sick leave or health information privacy.

6. All essential employees will have their hours and work locations documented, including off-site visits, by:

• All entrances will be locked with guard staff posted.
• All employees will use their access cards for entrance which documents their arrival on premises.
• Payroll, attendance, and time cards will further document an employee’s presence on campus.
• No other visitors will be allowed on site.
Such protocol shall be designed only to aid in tracking of the disease and to identify the population of exposed employees in order to facilitate the provision of any benefits which may be available to certain employees on that basis.

7. If emergency housing is needed to further contain the spread of the communicable disease, the Lindenhurst School District will lodge an essential employee at a local hotel bearing the full cost of the stay.

If there is a declared state disaster emergency involving a communicable disease that involves the Lindenhurst School District, all staff, essential and non-essential, will be contacted, and they will be guided by the aforementioned protocols.

8. OTHER: Any other requirements determined by the Department of Health such as contract tracing or testing, physical distancing, hygiene and disinfectant, or mask wearing.

**Responses to Acts of Violence**

1. The Principal or their designee will determine whether to contact law enforcement personnel. Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so). Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.

2. The Principal, and/or their designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.

3. The Building-level Emergency Response Team (BERT) consisting of trained staff and school personnel may assist with an Evacuation, Lockout, Shelter-in-Place, Hold-in-Place, or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.

4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.

5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal are detailed in each building-level emergency plan. The use of the District’s mass communication system is typically utilized.

---

44 155.17(c)(1)(ii) policies and procedures for responding to acts of violence by students, teachers, other school personnel including bus drivers and monitors and visitors to the school, including consideration of zero-tolerance policies for school violence;
6. Aggressively dangerous and violent students, staff or visitors shall be managed as outlined by the procedures detailed in the district Code of Conduct.

7. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District’s Code of Conduct.

8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.

9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Teams. These individuals and appropriate means of contact are documented in each Building-Level Emergency Response Plan.45

10. The district has a zero-tolerance policy for acts of school violence.

Identification of District Resources Which May Be Available for Use During an Emergency46

District resources are available in each building and stored in a central location. Each building will designate a Command Post. The list, which is not meant to be inclusive, requires the following items:

- Copy of District-Wide School Safety Plan
- Building-level Emergency Plan
- Quick reference Emergency Management Procedures
- List of emergency telephone numbers
- Building floor plans
- Telephones
- Radio communications
- Weather radio
- Flashlights
- Photocopier

---

45 155.17(c)(1)(vii) policies and procedures for contacting the appropriate law enforcement officials in the event of a violent incident;

46 155.17(c)(1)(viii) except in a school district in a city having a population of more than one million inhabitants, the identification of district resources which may be available for use during an emergency;
The District will, as appropriate, utilize all available manpower during an emergency. Within each building, schools may use the Staff All Call response protocol, which quickly summons all available staff members to a staging area for assignments. Coordination of available employees is typically performed by the Principal or their designee. Specific job duties will be assigned based on the type of emergency and in compliance with the appropriate district and building emergency response procedure. Additional district resources may be requested by any building administrator or designee as needed. The Superintendent or their designee will call in all available maintenance and custodial staff to provide support during an emergency as needed. Assistance from outside government agencies may also be requested. A specific list of available resources may be found in Appendix 4 of this plan.

**Participating in Unified Command under ICS Principles**

**Assignment of Responsibilities**

A chain of command consistent with the National Interagency Incident Management System (NIMS)/Incident Command System (ICS) will be used in response to an emergency. Members of the School, Emergency Response Team, will be part of this system. In the event of an emergency, the response team will adopt NIMS/ICS principles based on the size, scope, and character of the emergency.

1. All administrators and Building-level Emergency Response Teams members shall complete the incident command training level one.

2. All District Emergency Response Team members shall complete incident command training level one and level two.

**ICS Positions**

The number of ICS positions filled will be dependent upon the scope of the incident.

- **Incident Commander** – Responsible for the direction of the building response in a building-level emergency (Building Administrator/designee).

- **Public Information Officer** – Compiles and releases information to the news media.

- **Safety Officer** – Monitors the response to prevent injuries from occurring to both those involved in the incident and those trying to resolve it.

● **Incident Log** – Keeps a written log of all incident events and updates appropriate command post personnel on significant developments.

● **Operations** – responsible for directing the implementation of action plans and strategies for incident resolution.

● **Logistics** – Responsible for providing all resources (personnel, equipment, facilities and services) required for incident resolution.

● **Planning/Intelligence** – Responsible for collecting, evaluating, and disseminating the information needed to measure the size, scope and seriousness of an incident and to plan a response.

● **Administration/Finance** – Responsible for all cost and financial matters related to the incident.

**EMERGENCY REMOTE INSTRUCTION**

**OVERVIEW**

The District may offer eLearning days to students in the event-of-an-emergency condition, including, but not limited to, extraordinary adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of a school building, or a communicable disease outbreak.

When making decisions about remote instruction, the District will consult with students, parents, teachers, administrators, community members, and other stakeholders as appropriate. When implementing remote instruction, the District will ensure that it is complying with applicable teaching and learning requirements.

**DEFINITIONS**

A. "Asynchronous instruction" means instruction where students engage in learning without the direct presence (remote or in-person) of a teacher.

B. "Non-digital and/or audio-based instruction" means instruction accessed synchronously and/or asynchronously through paper-based materials where the student to teacher interaction occurs via telephone or other audio platforms.

C. "Remote instruction" means instruction provided by an appropriately certified teacher who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.
   1. Remote instruction will encompass synchronous instruction provided through digital video-based technology and may also include asynchronous instruction intended to
complement synchronous instruction. Digital video-based technology includes online technology and videoconferencing technology.

2. Remote instruction may encompass non-digital and audio-based asynchronous and/or synchronous instruction where this instruction is more appropriate for a student's educational needs.

D. "Synchronous instruction" means instruction where students engage in learning in the direct presence (remote or in-person) of a teacher in real time.

**Formats and Methods of Remote Instruction**

Remote instruction may be delivered through a variety of formats and methods. Determinations about how to best deliver remote instruction will take into account a variety of factors including, but not limited to, the number of students involved, the subject matter, the students' grade levels, and technological resources of both the District and students. Consideration will also be given to whether accommodations need to be made for students with disabilities or English language learners. Each school's Building-level Emergency Response Plan will contain this confidential information in the Continuity of Instruction Plan (COIP) section.

**Instructional Options**

The District may engage students in synchronous and asynchronous learning on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is supplementary to synchronous instruction. When remote instruction by digital technology is unavailable, appropriate special accommodations for students will be made to aid their learning. WiFi hotspots are provided to students where digital technology is not available. When digital technology is not appropriate, a team composed of the student's support staff will create a plan along with the family on how to continue education.

**Computer and Connectivity Access for Students**

The District will ensure that students have the necessary equipment at home to participate in eLearning.48 No later than June 30th of each school year, the Superintendent will report to the Commissioner of Education the results of the survey on student access to computing devices and access to Internet connectivity on a form and format prescribed by the Commissioner.49 The information received from the survey will aid in the development/updates to the detailed Continuity of Instruction Plan in each school’s Building-level Emergency Response Plan.

**Minimum Instructional Hours**

Students will also be required to abide by the rules contained within the Code of Conduct at all times while engaged in remote instruction. Violations of the Code of Conduct and/or engaging in prohibited conduct may result in disciplinary action as warranted.

PRIVACY AND SECURITY OF STUDENT AND TEACHER DATA

The District will take measures to protect the personally identifiable information of students and teachers from unauthorized disclosure or access when using remote instruction technologies in compliance with law, regulation, and District policy. Examples of these measures include, but are not limited to, minimizing the amount of data shared to only that which is necessary, de-identifying data, and using encryption or an equivalent technical control that renders personally identifiable information unusable, unreadable, or indecipherable to unauthorized persons when transmitted electronically.

District Support for Buildings
When the Chief Emergency Officer is notified that an emergency exists, he/she will respond accordingly.

Members of the District Safety Team will assist as needed either at their respective Building Command Posts or by responding where directed by the Incident Commander(s). The District Safety Team will assign such other personnel as deemed necessary to meet the needs of the situation.

The District Safety Team members will remain at their assigned posts until the Incident Commander(s) has determined that the emergency is over, or it is unsafe, or no longer necessary to remain, or need to relocate.

Should the incident involve a single building, at the discretion of the District Safety Team leader in consultation with that building’s administrators and Building Emergency Response Team (BERT), other school buildings may be called to support the Building Emergency Response Team in that building.

Should the incident involve multiple buildings, at the discretion of the District Safety Team leader, in consultation with building administrators, additional mental health support from the County Crisis Team
and local area hospitals may be solicited to support the Emergency Response Teams in the affected building(s).

In any case, a “debriefing”, or post-incident analysis, will be facilitated by the District Safety Team. This process will include a review of the actual incident, the Team’s response to the incident, and post-traumatic incident debriefing.

District clinicians (or, mental health professionals from outside agencies if they have been involved) will provide ongoing as-needed support to the Team members, and will monitor post-traumatic stress symptoms in team members. As appropriate, team members may be provided with a referral to EAP and/or with information regarding private mental health providers in the area.

Principal(s) are expected to consult with the District Public Information Officer in composing letters to parents following any emergency. The District’s Public Information Officer will assist in sending mass communication messages to affected groups.
